

March 11, 2015

Dear RMGI Customer,

I want to bring you up to date on the new situation regarding our production in France of analog recording tape.

As you know, in 2011 the RMGI factory in the Netherlands was purchased by Pyral and move to their new facility in France. Pyral had invested over \$2,000,000 in a new building to house the coating and production lines. There was also over a one year supply of tape moved to Pyral to meet the market demands while the coating and production were being re-assembled in France.

After numerous cost overruns that had not been anticipated such as the installation of a new solvent recovery system with a cost of over \$250,000, Pyral has operated under Chapter 11 protection in 2013-2014.

In January of this year the court ordered that Pyral assets to be sold to Mulann Industries. Mulann Industries is a manufacturer of production and testing equipment for the credit card, ticketing and smart card industries.

On March 4th I meet with the new owner of Pyral and his Sales Director in Chicago. He have assured me the continued production of Analog Recording tape. Mulann Industries, with a new management team is committed to improved delivery time and size carefully the inventory at the factory. Effective immediately, Mulann Industries will deliver only tape with the Pyral Brand.

RMGI America's will continue to be the distributor for the Pyral Analog Recording Studio Recording Tape.

Thank you for your continued support of RMGI\Pyral Studio Tape. If you have any questions, don't hesitate to contact me.

Regards,

Don Morris
